# STONE-BAKED PIZZA BY THE METER

Our pizzas are a hallmark of the city. Since 1985, they have had their unique rectangular shape, known as pizza by the meter.

All pizzas come with **homemade tomato sauce**, made from the highest quality tomatoes.

Our pizzas ferment for 2 days and are **cooked in a special stone oven**, resulting in a crust that is crispy on the base, soft inside and super light.

# THANK YOU FOR CHOOSING FRIENDS!

---

The **first toy arrived at Friends in 1992, the famous equilibrist 'Teddy Bear'** that goes from one side of Friends to the other. Currently, a successor to the original is hanging.

Since then, toys from all over the world keep arriving. Many of the toys have already been retired, many others continue and surely new generations will also come, as happens in life.

**Discover where** and in **what year** the toys arrived by carefully observing the signs that are placed on them.

For us, **toys are magic**, capable of **transcending** all **generations** and awakening our **inner child**.

---

We thank you for being a part of Friends, for choosing us, and we hope to see you back.

Thank you very much!

Friends Team!
